All about the Solar System: Visit from Wonderdome Mobile Planetarium

Today we had a visit from the Wonderdome inflatable mobile planetarium. We lay down inside and watched and listened to an amazing fact-filled exposition from the presenter Curtis. We saw some awe-inspiring images of the wonders of the solar system as well as superb film footage of the Apollo moon landings in 1969.

At the end of the show, we asked Curtis some excellent questions:

How do we know there are other solar systems? (Bellamai)

Are there other planets in other solar systems other than ours? (Chloe)

If you stand on another planet, can you still see other planets? (Alice)

On Venus, would food cook straightaway? (Joseph)

Do you know if it is true that people will one day live on Mars? (Jasmine)

What is the latest moon discovered? (Lochlan)

Is there weather on the Moon? (Diana)

Does Jupiter Have rings? (Cuthbert)

Are there other planets to be discovered in the solar system? (Cuthbert)

Is it true that on Neptune it rains diamonds? (Cuthbert)

If you landed on the Moon could you live there? (Joseph)

Is the flag still flying on the Moon? (Sienna)

Is it true Earth's continents were once joined? (Isabella)

Does time change in space? (Joseph)
