

Reception Spring 2 Where Food Comes From Farm to Fork

Children will be reading non-fiction books to find out information about farming and where our food comes from. We will also be using the farm to fork teaching tools to find out facts about food and farming. We will be using our Read Write inc strategies to make our own information books and to write a glossary of facts. Can your child hold their pencil with a tripod grip? Why not practise letter formation with your child. Can they sound out and spell green and red words from set 1 and 2 RWI.

Remember to send us those WOW moments on evidence me.

In Maths

Counting, cardinality and ordinality.

We will be focusing on one more and one less.

Adding and subtracting Time – Days of the week, Months of the Year. Clocks O'clock and half past analogue and digital clocks .Money. Chanting 2`s, 5`s and 10`s times tables. We will also continue to practice touch counting, number recognition and ordering up to 10, 20 and beyond.

We will be finding out about different artists. Different Countries and Climate Change. Revisited from our Dear Mr Polar Bear Text. Our Artists this half term will be sculpture Antoine-Louis Barye and painter William Huggins.

Do we have any parents or grandparents that could make a power point, film or talk to us about farming past or present. Or could tell us any information about the artists that we are studying this half term. We would love to see and hear your information. We would also welcome any photographs of farm animals/implements or harvesting past or present.
